Handicap Singles Format - 51 Point Game

Handicap Points Calculation – The Handicap Points calculation is based on the USATT Tournament Guide for Handicap Singles 41 point Game rules.

Match – Match is 1 game to 51 points.

First Service – The lower rated player starts each game with their score based on the assigned handicap. The toss of the coin, for serve/receive and ends remains the same as for any other match.

Lower Rated Player Serves 1st Example – If the Lower rated player has a 3 point handicap, wins the toss, and elects to serve. They would start 3-0 and serve only 1 point before the service change.

Higher Rated Player Serves 1st Example – If the Higher rated player gives up a 3 point handicap, wins the toss, and elects to serve. They would start 0-3 and serve only 1 point before the service change.

Handicap Points is an Even Number Example – If the Handicap Points is an Even number, then whichever player elects to serve and they will serve 2 points before the service change.

Duece – If the points scored in the game are tied at 50 – 50, then the players will alternate serves until one player wins the game by 2 points.

See Handicap Chart 51 Point Game for determining Point Differential.

Competition Format – Preliminary Round Robins will be created and seeded using the player's established or estimated rating. The estimated rating will be established by the Referee for players that do not have a USATT rating.

The Round Robins will have a maximum number of 4 players. 1st and 2nd place players will advance to Class A, 3rd and 4th place players will advance to Class B. Each class will proceed to a single elimination or final round robin to determine 1st and 2nd place. If the total number of players is less than 6, then a single Round Robin will determine 1st and 2nd place.
